Dear Parents,

User Agreements

Please find attached your child's 'Acceptable Internet use Agreement'. An 'Acceptable Internet Use Agreement' is a tool with which we can teach the children about the risks associated with internet use and how they can keep themselves safe. It also helps to instil responsibility in the children by highlighting what their responsibilities are when using the internet and online resources which are so prolific within our curriculum and within the children's everyday life outside of school. Please read and discuss the attached 'Acceptable Internet Use Agreement' with your child (hopefully they will have a good understanding of this already). Get your child to 'sign' it and return it to your child's class teacher as soon as possible.

Once the agreement has been signed and returned to your child's class teacher. If you have any further questions or would like more information and advice about how to keep your children safe when they are using the internet, please contact your child's class teacher.

Virtual Reality

We are also thinking of new ways to support our pupils in their learning and to create wonder and excitement about the world we live in. We also appreciate that technology is a big part of their lives and will be even more so in the future. As such, we are looking into introducing virtual reality into our curriculum. With the introduction of VR our pupils would be able to explore life under the sea, travel through space or above the Amazon Rainforest.

Therefore, we kindly ask that if you or anyone you know has an old iPhone or Android phone (and charger) that you no longer have use for, that it could be donated to school to help us support the introduction of Virtual Reality.

If you do have a phone you would be willing to donate or have any further questions, please speak to the office or Hannah Jones in Blue Class.

Yours Sincerely

Mrs Hannah Jones

Computing Lead and EYFS Lead
