- Can you count in multiples of 2, 5 or 10?
- Practice finding pairs of numbers to total 10, 20 or 100

- Can you find and read a story, a set of instructions, a comic?
- Retell stories using key language- this can be verbally or through story maps

**Writing Focus:**

Last week the children began to innovate their own version of 'Someone Swallowed Stanley'. Using these plans, the children will write up the stories, each focusing on the next part of the story. They will be including expanded noun phrases and prefixes to add interest to their stories.

**Maths Focus:**

During this week, some of the children will continue to focus on number and place value, thinking about the spelling of numbers. The rest of the children will be focusing on measurement, reading scales for mass and temperature.

**A final plea from us (deadline of Tuesday 5<sup>th</sup> May):**

Art this half term will focus on sculpture using recycled materials. Recently bottles have been requested but we would like to also include other 'junk modelling' materials Things that could be used are:

- Bottle tops
- Egg cartons
- Straws
- Yoghurt pots (clean and dry)
- Toilet roll tubes
