

FREGROUNDS INFANT SCHOOL
EYFS

Week Beginning: Monday 8th June 2026

Key Messages:

As we move into the second half of summer term and the weather gets hotter, please make sure your child has applied sun-cream and brings a hat and water.

Maths Activities:

Continuous learning that you can do at home:

Continue to encourage your child to count forwards and backwards in ones up to 20. Encourage your child to order, recognise and write the numbers up to 20. Practise spotting 2D and 3D shapes in the environment or using position and direction words as part of play.

Focus of the week:

The children will be exploring subtraction within 10 or 20. They will continue to develop their understanding and sense of number through a variety of visual and practical activities, applying their knowledge in problem solving contexts.

English Activities:

Phonics Focus:

To support the children in phonics they are working in small targeted groups with children that are learning the same sounds and phonological skills.

Focus of the week:

This week we are sharing the story 'Dear Earth'. It is a story celebrating all the different places we have on Earth and how we can look after them. The children will be creating their own planet protectors and underground root worlds.

Home Learning:

Thank you for your comments in the reading journals, we really appreciate it. It is recommended that the children read it at least 3 times to be able to practice all the relevant skills!

Thank you for your continued support,
The EYFS Team

Article 31 is about your right to relax and play. We look forward to hearing about what you get up to over the half term break.
