

Around the world!

English

Our English will have a focus, linked to our Geography, of London. The children will be looking at creating leaflets about the capital city, look at developing speech and thought bubbles and writing a diary.

Maths

Throughout this half term, the children will be revisiting addition and subtraction and place value, as well as starting to look at time and measurement of mass.

PSHE

The children will be learning about how to keep safe. They will explore safe and unsafe secrets, appropriate touch and medicine safety.

RE

The children will be thinking about 'remembering' and the Hindu festival of Holi.

Geography

We will be learning about Planet Earth, it's continents and oceans. The children begin by looking at the four home countries and their capital cities before venturing further out.

Music

During this half term, the children will be investigating singing, thinking about singing in unison, in a round and the duration of songs.

PE

During this half term, the children will focus on gymnastics. They will focus on some key shapes and look at ways they can combine these, on the floor and on the apparatus.

Art

For Art, the children will explore using textiles to support them in making an image. They will consider how colours can be used and how different textures can change the look.

Computing

Computing will come into our Writing at times this half term. The children will be learning how to type and change their writing, thinking about the font, size and colours used.
